Milton Township Highway Department

Annual Facility Inspection Report March 2017- March 2018

Permit Number ILR400086

Section B Status of compliance with permit conditions

Public Education and Outreach: The Township continues public education through the Township's website and our Homeowner's Handbook which is sent out annually to all the residents of the unincorporated areas of the Township. "After the Storm" a citizen guide to understanding stormwater brochure is available to the public at the Milton Township Highway Department office. DuPage County Stormwater Management provides, through its Stormwater Outreach Coordinator, various training workshops, homeowners workshops, brochures, training manuals, teacher/student education, videos, etc. There is information on the Township's website and in the Homeowner's Handbook regarding the "No Dumping - Drains to River" symbols painted at storm water drains throughout the Township. This symbol is intended to remind the resident of the Township that it is not only illegal to dump anything into a storm drain but it is also hazardous to the environment.

Public Participation/involvement: DuPage County Stormwater Management coordinates and participates in public meetings and committees, including the Municipal/County Intergovernmental Advisory Committee Stormwater Management Committee (SMC), Municipal Engineers Technical Advisory Committee (TAC), and volunteer support. Residents can report instances of pollution or suspected pollution by contacting the Township office (630) 682-4270 or by email.

Illicit Discharge Detection and Elimination: The Township has completed a digitized map of the entire storm sewer system, which is used to trace discharges. The Township has also digitized and mapped all its MS4 outfalls. Township staff report any illicit discharge seen during routine maintenance duties throughout the Township. DuPage County has initiated their Illicit Discharge Detection and Elimination (IDDE) program regarding the screening for and tracing of illicit discharges into Waters of the State from MS4 outfalls. County staff hosts an illicit discharge hotline, performs field inspections of known outfall locations, and, where applicable, traces a suspected illicit discharge to the source.

Construction Site Runoff Control: DuPage County Stormwater Management establishes the minimum stormwater management requirements for development in DuPage County. DuPage County Stormwater Management establishes standards for construction site runoff control.

Post Construction Runoff Control: DuPage County implementation and enforcement of the County's Stormwater Management (DCSFPO) and Flood Plain Ordinance; performs related work as required. Also, establishes standards for post-construction runoff control.

Pollution Prevention/Good Housekeeping: The Highway Commissioner and employee continue their education by attending snow plow workshops/seminars hosted by DuPage County. Also, Underground Storage Tank class A/B or C operator certificate required by the State Fire Marshall for spill and leak detection. The Township increased the amount of times the streets are swept to prevent pollution from entering the storm sewers. The Township stores road salt and de-icing liquids under cover. The Township garage has an oil/water separator system for the floor drain and recycles used oil from equipment. The Township continues and expands current winter de-icing methods using more environmentally friendly geo-melt blends to pre-wet salt at spreader and spray on roads for anti-icing.

The Best Management Practices (BMP's) outlined in the Township MS4 NPDES Permit provides the necessary guidance for the Township to achieve the statutory goal of reducing the discharge of pollutants to the maximum extent practicable.

Through the activities of this reporting period, the Township is taking positive steps in reaching the goal.

Section C

See DuPage County Annual Report

Section E

Milton Township is one of the co-permittees relying on DuPage County to satisfy some permit obligations.

Section F

Foxcroft subdivision resurfacing project.

Butterfield East subdivision hazardous sidewalk replacement and asphalt patching program.
